WORK EXPERIENCE

TECHIMPULSERS Remote

Associate Software Developer June 2021 - July 2023

1. **Engineered a high-traffic e-commerce platform,** leveraging **React, Spring Boot, and Kubernetes,** leading to a **40% increase in user engagement** and a **30% improvement in transaction speed.**
2. **Optimized system performance** by implementing **scalable microservices**, **boosting load handling capacity by 35%**.
3. **Automated deployment processes** using **Jenkins and Docker**, reducing **release time by 50%** and minimizing manual errors.
4. **Redesigned a task management interface**, increasing workflow efficiency by **20%** and improving cross-team collaboration.
5. **Implemented WebSocket-based real-time communication**, enhancing responsiveness and **reducing latency by 25%**.
6. **Mentored junior developers**, increasing overall team productivity and **code quality by 30%**.
7. **Led cross-functional collaboration**, ensuring projects were delivered **on schedule and aligned with business objectives**.

ARCOSA, Inc. Tulsa, OK

Software Engineering Intern May 2024 - August 2024

1. **Transformed** legacy steel analysis processes by replacing **Excel with a web application**, reducing manual work by **40%** and significantly accelerating result generation.
2. Designed and maintained **ASP.NET Core APIs**, enhancing system reliability and **cutting response time by 35%**.
3. **Built an intuitive Angular-based UI**, boosting user adoption rates and reducing **onboarding time by 20%**.
4. **Presented technical insights and progress updates weekly**, securing stakeholder buy-in and ensuring project alignment.

UNIVERSITY OF TULSA Tulsa, OK

Teaching Assistant – Computer Science, Fundamentals of Algorithms and Programming in Python July 2023 – May 2025

1. Instructed and guided over **35 students, helping them** develop strong programming foundations in **Java**, **Python**, and **object-oriented concepts**.
2. **Evaluated and graded assignments and projects**, ensuring adherence to **industry best practices and coding standards**.

TECHNICAL SKILLS

Data Structure and Algorithms
Programming Languages: Java, C#, C++, Python, SQL, JavaScript, TypeScript
Frameworks: .NET core, Spring Boot, Flask, Angular, React, Node.js
Tools: Git, Docker, Kubernetes, Jenkins, JIRA, Terraform, IntelliJ
Databases: MySQL, MongoDB, PostgreSQL, SQL Server, Redis
Cloud Platforms: AWS (**EC2, CloudFront, S3**), Azure
Machine Learning: Large Language Models, Transformers, Q-Learning, Unsupervised Learning, Statistical Pattern Recognition
LinkedIn Certifications: JavaScript Essential Training, ReactJS, SQL
Coding Platforms: LeetCode (leetcode.com/u/noumahme)

PROJECTS

LLM-Based AI Recommender System: An LLM Application (Python, OpenAI API)

1. Built an **AI-powered recommender** using **Large Language Models (LLMs)**, boosting engagement and accuracy by 35%.
2. Integrated **OpenAI ChatGPT 4o mini API** with **a responsive UI**; optimized **PostgreSQL** for 30% faster **query performance**.

Chat Application with Real-Time Features (Angular, Spring Boot, WebSocket, MySQL)

1. **Designed and implemented** a **real-time chat application**, cutting message latency by **50%** and enhancing **user engagement**.
2. **Integrated WebSocket protocols**, enabling instant messaging, **status updates, and real-time group chat interactions**.
3. **Streamlined database queries**, cutting **message retrieval time by 30%** and improving overall system responsiveness.

EDUCATION

UNIVERSITY OF TULSA Tulsa, OK

MS in Computer Science, GPA: 3.88 (on a scale of 4) May 2025

Relevant Coursework: Analysis of Algorithms, Machine Learning, Statistical Pattern Recognition, Evolution of Computation, Introduction to Computer Engineering, Fundamentals of Cyber Security

JOLT Fellow – Entrepreneurship Program at University of Tulsa.
